

Your Abundant Life

Come our God and visit us sick we pray.
Lend us hope when hopeless seems the way.
Low down young and old, end the pain we hold.

*Come to us when we're lost.
Lead us, into your abundant life, your abundant life.*

Come then Jesus servant of the world.
Lend us joy when joyless is our serve.
Heal our broken wings. Soothe our suffering.

Chorus

Come now Spirit, enter in our doubt.
Flattened hearts that cannot raise a shout.
Teach us how to be, in this modernity.

Chorus

Come great liberator to our land.
Sing the sacred dreaming of the sands.
In the desert place, show to us your grace.

Chorus

*Your abundant life.
Your abundant life.*
