

Gwen Arnold's story

A candle I made some years ago inspired after our time at Naiyu community (Daly River) with Miriam Rose. Whilst living in the community we were able to view and purchased this amazing art piece by Grace Kumi -mermaids. For me it spoke of the many rooms, the many parts of self and the central spirit that brings life. What a gift that Grace and I were able to share our reflections together. Just as we are all blessed at BUC to listen, reflect, and share.
