Water Colours

The artworks were all painted during lockdown as a way of bringing vitality and joy to everyday life. They are inspired by Spring and noticing the beauty of nature especially flowers during my walks in the local neighbourhood.

More than any other time, the colours seemed more vibrant, the shapes, movement and variety more nuanced and pronounced.

I wished to offer these works because it captures a time of coming out of winter and colours reminding me that change is happening and in that lies HOPE.

All the works are painted in watercolours on cold pressed 300 gsm watercolour paper.

The paper is 100% cotton and acid free.

They are unframed and are sized A3 ie 297x420mm.

The works are untitled.
