Bev's art works are not only about beauty – they encompass issues such as climate change, justice, the strength and struggle of asylum seekers and more. She uses recycled materials in many of her works and the mystery of nature is a major theme.

Bev lives in Darwin. She joined Olive Arts on Zoom during lockdown last year when she was visiting family in Melbourne. She is offering this session in gratitude for the support offered during this time. Visit Bev's recently launched website <https://www.bevgarside.com>

KNITTING KATIE

Bev told us a story about her dear Mother, Betty and her cat. Betty is our 90+ years-old amazing Beanie knitter. We showed a photo of Betty's work in last month's Newsletter. Betty has a cat named Katie. Katie has earned the nickname of Knitting Katie because she "helps" Betty. How can a cat help you ask? Well, she fondles the ball of yarn that Betty is using and allows the thread to run through her paws as Betty knits the rows. Katie never plays with the ball of wool, she just gently feeds the yarn to her companion. What a lovely story. And what a great companion is Knitting Katie. Thankyou Bev and Betty.
