

Dave Miller
Interim Student House Program Leader

I have always enjoyed being involved in youth leadership having been a leader on many YMU camps and at NCYCs many years ago. Before that I remember the role that sensible adults played in leadership roles when I was in youth groups or around shared houses and the almost accidental mentoring and guidance they provided through simple interactions and conversation. While not claiming to be a sensible adult, having got to know many of the students already through my role on the property committee, I am really looking forward to being more involved with the student houses and spending time with these good humans as they live in community with each other.
