

Matilda McClintock
Interim YUCY (Youth Group) Leader

I moved to Melbourne from Tasmania at the start of 2021 and have been living in the BUC student house since then. I come from a large family, so I have a lot of experience running activities for kids and teens, and I've been volunteering as a leader at YUCY since last year.

A little more about me... I'm studying a double degree of Science and Arts at Monash University, focussing on genetics, biochemistry, history, and literature. I love gardening, stories, and dabbling in various creative endeavours!

Helping to plan and run YUCY events has been an incredible experience so far, and I'm so excited to keep making youth group a fun and safe space for young people to enjoy!
